

### NICAS

We can operate the SPY Mobile Climbing Wall with traditional belays as well as an automated system. This allows us to deliver the National Indoor Climbing Award Scheme (NICAS) Level 1 at your own site and to train groups for more adventurous climbing on 'real rock' on natural crags. For more information on the National Indoor Climbing Achievement Scheme, please contact us on 0161 214 9999.

### Versatile hire options to suit your needs:

Either, we will provide the wall, all technical equipment, insurance and qualified instructors who will manage the event for you;

or

we can deliver the wall to your venue with a member of staff to erect and dismantle it. You simply provide your own (qualified) staff, equipment and insurance cover.

If you haven't got a suitable site to erect the wall, we can help you locate one and we can even provide you with a 15 seater minibus to transport you to the site!

We can offer **discounts for multiple bookings**, so to obtain a quote or to make a booking, **contact SPY on 0161 214 9999** with your numbers and we can design a tailor made programme for your day and provide a quotation.

St. Peter's Partnerships, a charitable  
company registered in England & Wales.

# Kids driving you up the wall?

Looking for **something  
different** to add the  
spice of **adventure**  
to an event?...

...why not try  
**SPY'S MOBILE  
CLIMBING WALL**

## St. Peter's Youth (SPY) Mobile Climbing Wall

Our brilliant 6.5 metre (approx 21.5ft) high structure offers three different faces which can accommodate four climbers at any one time and over forty climbers an hour.

You can leave all the hard work up to our team as we will deliver the wall to your venue and erect it ready for use. We can then supply expertly trained leaders to run your event, or you can provide your own suitable qualified and vetted staff – the choice is yours.

All SPY staff are qualified instructors, holding either: the Mountain Leader Training Board Single Pitch Award (SPA) or the Mountain Leader Training Board Climbing Wall Award.

**And for your peace of mind, ALL SPY staff are CRB checked.**

### Features

- ▲ Suitable for a variety of ages and events
- ▲ Textured, featured climbing surface designed to create a realistic climbing experience
- ▲ Has 4 different climbing faces offering a choice of 8 climbs in a safe but challenging environment
- ▲ Can accommodate up to 40 climbers per hour
- ▲ Can be erected and ready to use in 15 minutes after arrival at site
- ▲ Features colour coded climbing routes
- ▲ Offers 'manual belaying' to simulate the climbing 'feel', providing support and encouragement to all ages
- ▲ Also fitted with hydraulic auto belay systems for use when required

## Looking for a Great Day Out with a difference!

Climbing under safe, scrutinised conditions is an ideal activity for schools and because of our wall's maneuverability can be carried out in any suitable outdoor site at most schools. It provides a great attraction for extended school schemes, for 'after school' clubs or for involvement in school fairs and fun days. The SPY Mobile Climbing Wall is also a perfect accompaniment for Corporate Days and can offer something different at commercial events such as Product Launches. It is perfect for fairs, events in parks or country parks, at scout/guide camps and hundreds of other uses.

### Schools or youth groups at your site?

Why not combine the SPY Mobile Climbing Wall with team building exercises to make an 'Adventure Day'? In this way your organisation can accommodate large numbers of participants in one day.

### Youth outreach work

The wall can also be used as part of a Youth Outreach program and is suitable for an evening activity or as a focal point. It can be erected on any suitable flat area of grass, car park, etc., and thanks to our superb floodlights, we can now also bring the wall to you for use after dark. This presents a fantastic opportunity for you to offer a surreal atmosphere not normally experienced in daylight which can provide your organisation with a fantastic opportunity to attract new members!

### Dimensions

#### On the road (trailer and towing vehicle)

- ▲ 16 meters (approx 52.5ft) long
- ▲ 3.2 meters (approx 10.5ft) high
- ▲ 2.3 meters (approx 7.5ft) wide

#### When erected (wall and towing vehicle)

- ▲ 13.6 meters (approx 44.5ft) long
- ▲ 6.5 meters (approx 21.5ft) high
- ▲ 2.8 meters (approx 9ft) wide

PLEASE NOTE that for access purposes, all gates and entrances MUST be over 3.5 metres (approx 11.5ft) wide and 3.5 metres high (approx 11.5ft). In high winds the wall may need to be lowered for safety.
